Domestic consumer sentiment provided by the GB National Tourist Boards for March 2024 found that 22% of respondents said they had "...been hit hard - no option but to cut back on spending" (a 1% increase on the February 2024 survey). The survey recorded 44% of respondents (a 5% decrease on the February 2024 Survey) saying they were "...cautious - things are ok but I feel I have to be very careful".

Despite consumer concern about the state of the economy, 35% of UK adults intended to take a domestic overnight trip in the second quarter of 2024 and 76% in the following 12 months. These figures show an increase in those planning an overnight trip compared with March 2023 (29% and 73% respectively). However, the key three barriers to taking an overnight UK trip in the next six months are the rising cost of living, UK weather and Personal finances. The figures above have been consistent across the last four waves of the GB National Tourist Survey (VisitBritain 2024), this continues to show the importance attached to holiday expenditure even in a challenging economic environment waves of the GB National Tourist Survey (VisitBritain 2024), this continues to show the importance attached to holiday expenditure even in a challenging economic environment.

The recovery in international inbound visitation continued to grow in March 2024; with the Eurocontrol (European Air Traffic Agency) indicating that UK air connectivity saw a 3% increase when compared to the same period in 2023, however, UK air connectivity saw a 7% decrease in year-to-date flights compared to 2019.
