Based on the latest Inflation Figures from the Office of National Statistics, UK CPI (inflation) in the 12 months to May 2024 is 2.0%, down from 2.3% in April. The inflation rate for May 2024 for recreational and cultural services, specifically Museums, libraries and zoological gardens (as a proxy for the attraction sector) is 4.1%. Data from the Scottish Retail Consortium revealed that total sales in Scotland in May showed a 0.5% year-on-year decrease, it should be noted that May 2023 saw the King's Coronation and two Bank Holidays. With food inflation stabilising (lowest grocery inflation since October 2021), May 2024 saw total food sales increase by just under 1.0% compared to last year's period.

Domestic consumer sentiment provided by the GB National Tourist Boards for May 2024 found that 20% of respondents said they had "...been hit hard - no option but to cut back on spending" (a 1% decrease on the April 2024 survey). Despite consumer concern about the state of the economy, 25% of UK adults intended to take a domestic overnight trip in the second quarter of 2024, this is an increase compared with May 2023, with 76% of UK adults intending to take a domestic overnight trip in the following 12 months. However, the key three barriers to taking an overnight UK trip in the next six months are the rising cost of living, UK weather and Personal finances.
